

# Chris Caldwell

## Web Developer

I am a creatively logical developer with a passion for exploring ideas at the intersection of technology, design, art, and science. I strive for elegant coding solutions to express creative ideas and solve problems.

My recent projects have been focused on front-end development where I am interested in pushing the boundaries of the user experience through techniques in animation, design, and interactivity. I also have some experience with the MEAN stack and Ionic mobile development.

### EXPERIENCE

**BUSINESS INTELLIGENCE SPECIALIST & PORTFOLIO ACCOUNTING ANALYST: GOLDMAN SACHS, 2017**

- I used Tableau and Alteryx to build analytics dashboards and data automation tools for Operations teams.
- I analyzed cost basis data quality and performed data reconciliations to ensure trades and investments were reported correctly to the IRS.

**ASSOCIATE BUSINESS ANALYST: PACIFICORP, 2015**

- I analyzed electrical grid data to ensure that efficiency targets were met.
- I worked with technicians to determine if meters were accurately collecting data and implement corrections where necessary.

### EDUCATION

**DEV MOUNTAIN: WEB DEVELOPMENT 2016**

Completed full stack development boot camp focused on HTML, CSS, Javascript, jQuery, and the MEAN stack (MongoDB, Express, Angular, and Node).

**UNIVERSITY OF CALIFORNIA DAVIS:**  
BACHELOR OF ARTS IN MATHEMATICS 2010  
BACHELOR OF ARTS IN ECONOMICS 2010

### PROJECTS

**PORTFOLIO SITE:** [Cx523.github.io](https://Cx523.github.io)

This is the central hub for projects I am currently working and more information about me. My goal here was to create interactivity and unique design elements using jQuery as the only additional library.

**BITCOIN PRICE TRACKER:**

This is an AngularJS app, which retrieves the new Bitcoin price every minute. It features some custom directives which I developed, including one which uses D3.js to generate a basic chart which updates with new data.
