Chris Caldwell
Web Developer

I am a creatively logical developer with a passion for exploring ideas at the intersection of technology, design, art, and science. I strive for elegant coding solutions to express creative ideas and solve problems.

My recent projects have been focused on front-end development where I am interested in pushing the boundaries of the user experience through techniques in animation, design, and interactivity. I have experience with the MEAN stack, React, and Webpack.

EXPERIENCE

BUSINESS INTELLIGENCE SPECIALIST & PORTFOLIO ACCOUNTING ANALYST: GOLDMAN SACHS, 2017

- I used Tableau and Alteryx to build analytics dashboards and process automation tools for Operations teams.
- I analyzed cost basis data quality and performed data reconciliations to ensure trades and investments were reported correctly to the IRS.

ASSOCIATE BUSINESS ANALYST: PACIFICORP, 2015

- I analyzed electrical grid data to ensure that efficiency targets were met.
- I worked with technicians to determine if meters were accurately collecting data and implement corrections where necessary.

EDUCATION

DEV MOUNTAIN: WEB DEVELOPMENT 2016

Completed full stack development boot camp focused on HTML, CSS, Javascript, jQuery, and the MEAN stack (MongoDB, Express, Angular, and Node).

UNIVERSITY OF CALIFORNIA DAVIS:
BACHELOR OF ARTS IN MATHEMATICS 2010
BACHELOR OF ARTS IN ECONOMICS 2010

PROJECTS

PORTFOLIO SITE: https://cx2523.github.io/Chris-Caldwell-Web-Portfolio/
This is the central hub for projects I am currently working and more information about me. My goal here was to create interactivity and unique design elements using primarily jQuery.

BITCOIN PRICE TRACKER:
This is an AngularJS app that gets the new Bitcoin price every minute. It features custom directives that I developed, including one that uses D3.js to generate a chart that updates with new data.
